AUTHENTIC INDIAN JEWELRY FROM A WELL-KNOWN TRADING POST IN THE FAR WEST

This beautiful Indian jewelry comes from the heart of the Navajo country. It is the product of American Indian silversmiths, who use genuine coin and Sterling silver and genuine turquoise sets in varying blue and green shades, as their materials. Tourists drive miles to find these Indian trading posts... now you can get the same authentic Indian jewelry at Spiegel's! Note the Indian designs--the thunderbird, for example, means "bearer of happiness"; while the turquoise is supposed to protect the wearer from injury. Give American Indian jewelry this year!

SPIEGEL'S BUY BACK BOND

More than a Guarantee of Sale. In fact, each diamond carries a special individual guarantee. In addition, this bond includes a provision that you can return your diamond within a year from the date of purchase, and receive the full purchase price you paid on a larger, finer diamond ring.

All rings come in Women's sizes 5 to 8 and in Men's sizes 9 to 12. Smaller and larger sizes than those mentioned can be furnished to you without extra cost, but you must first send and allow an extra ten days for delivery.
WEDDING RINGS—All wedding rings will be hand engraved with the initials of both the bride and groom and the wedding date, at no extra charge. PLEASE PRINT INITIALS AND THE WEDDING DATE on your order blank.
STATE RING BEST—Be sure to read the accompanying instructions given above.

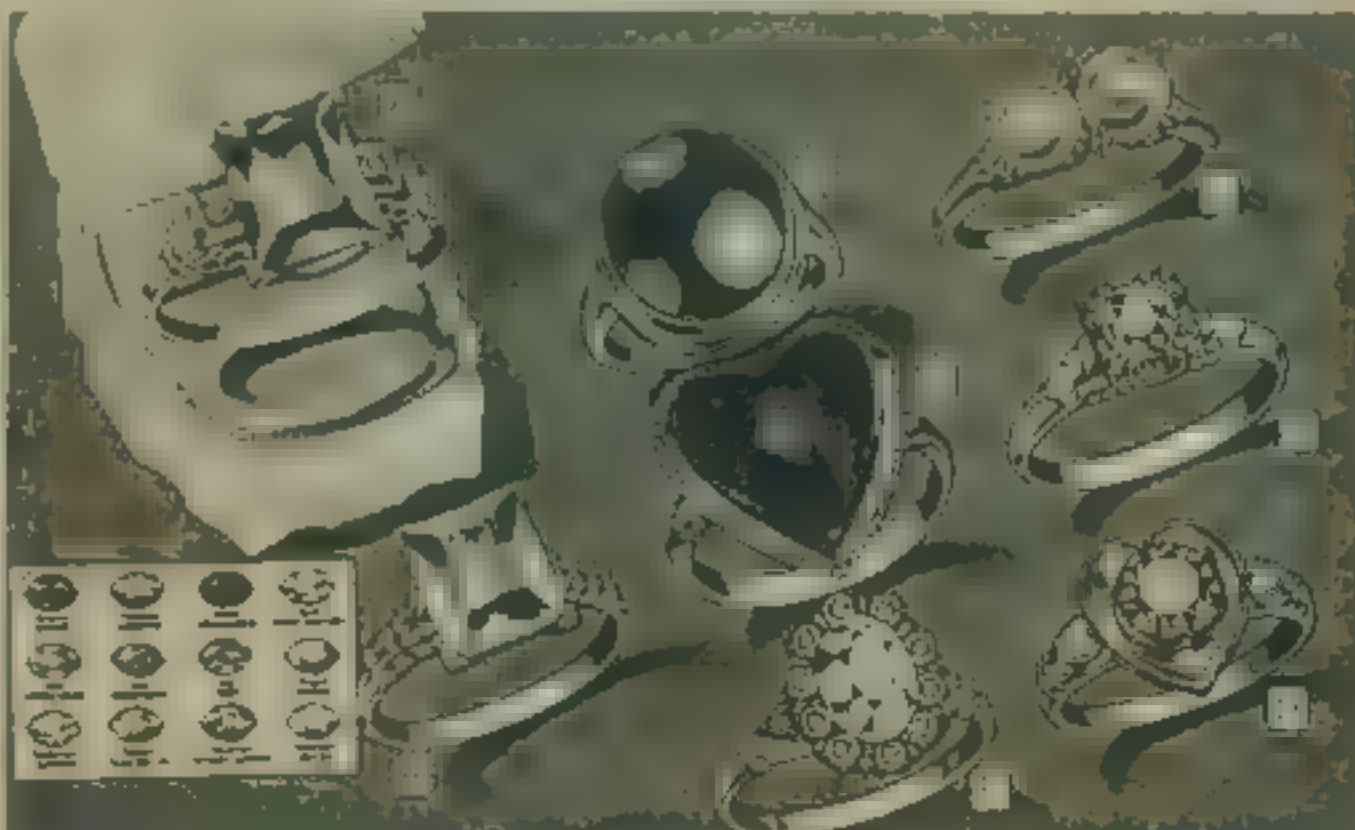

HOW TO MEASURE FOR RINGS

Method A: Cut a piece of cardboard in a long narrow triangle, similar to the triangle shown at the left, but wider. Then take a ring that fits your finger and drop the ring over the smaller end of the triangle. Now draw a line across the cardboard exactly where the ring stops. Please be sure to send this cardboard with your order and we will send you a ring to fit you perfectly.

Method B: Take a small piece of paper and write it around the largest joint of the finger on which the ring is to be worn. Cut paper so ends will meet at exact size. Place paper strip on chart below with one end at point "A," and the other end will indicate your ring size on chart. Measure carefully and be sure to state the correct size on your order. Do not use string to measure as string may stretch and the ring size will be too large.

where \mathbf{m}_1 and \mathbf{m}_2 are the mean vectors of \mathbf{X}_1 and \mathbf{X}_2 , respectively, and \mathbf{S}_1 and \mathbf{S}_2 are the sample covariance matrices of \mathbf{X}_1 and \mathbf{X}_2 , respectively. The discriminant function $D(\mathbf{x})$ is defined as

$$D(\mathbf{x}) = \frac{1}{2}(\mathbf{x} - \mathbf{m}_1)^T \mathbf{S}_1^{-1}(\mathbf{x} - \mathbf{m}_1) - \frac{1}{2}(\mathbf{x} - \mathbf{m}_2)^T \mathbf{S}_2^{-1}(\mathbf{x} - \mathbf{m}_2) + \ln \frac{p_1}{p_2} \quad (1)$$

where p_1 and p_2 are the prior probabilities of \mathbf{x} belonging to \mathbf{X}_1 and \mathbf{X}_2 , respectively. The discriminant function $D(\mathbf{x})$ is used to classify the input vector \mathbf{x} into one of the two classes. If $D(\mathbf{x}) \geq 0$, then \mathbf{x} is classified into \mathbf{X}_1 , and if $D(\mathbf{x}) < 0$, then \mathbf{x} is classified into \mathbf{X}_2 .

1. The first step in the process of identifying a problem is to recognize that a problem exists. This is often done by comparing current performance with a desired state or goal. If there is a discrepancy, a problem is identified.

2. The second step is to define the problem. This involves identifying the specific aspects of the problem that need to be addressed. This can be done by asking questions such as "What is the problem?" and "What are the symptoms?"

3. The third step is to analyze the problem. This involves identifying the causes of the problem and determining the scope of the problem. This can be done by asking questions such as "What are the causes of the problem?" and "How big is the problem?"

4. The fourth step is to develop a solution. This involves identifying the best way to solve the problem. This can be done by asking questions such as "What are the possible solutions?" and "Which solution is the best?"

5. The fifth step is to implement the solution. This involves putting the solution into action. This can be done by asking questions such as "What steps need to be taken?" and "Who is responsible for each step?"

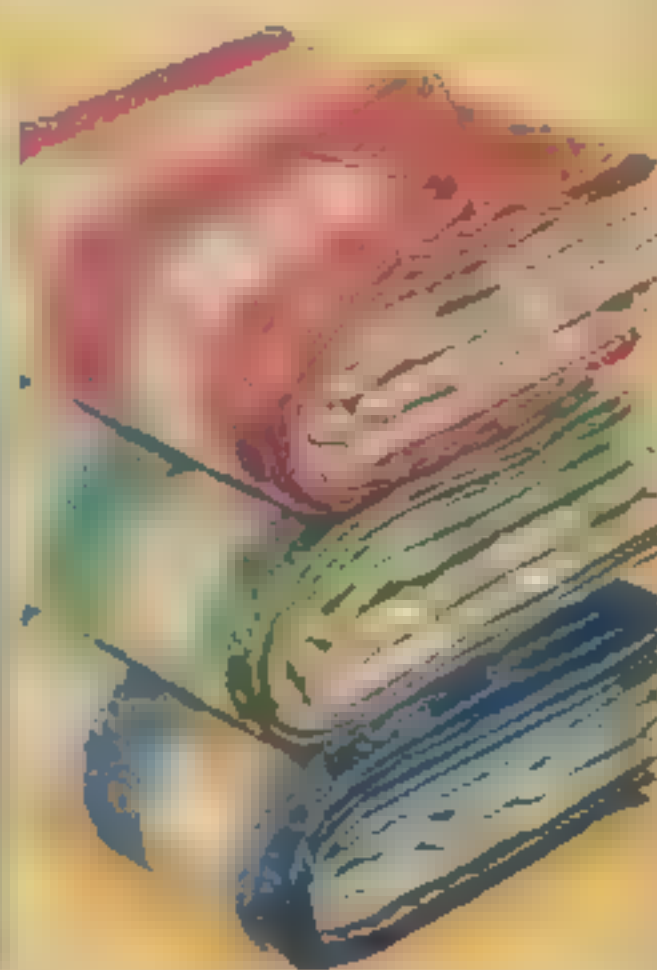

6. The sixth step is to evaluate the solution. This involves determining whether the solution has been successful. This can be done by asking questions such as "Has the problem been solved?" and "What are the results?"

7. The seventh step is to monitor the solution. This involves keeping track of the problem and the solution over time. This can be done by asking questions such as "Is the problem still there?" and "Are there any new problems?"

8. The eighth step is to document the solution. This involves recording the steps that were taken to solve the problem. This can be done by asking questions such as "What steps were taken?" and "What were the results?"

9. The ninth step is to communicate the solution. This involves sharing the solution with others. This can be done by asking questions such as "What are the key findings?" and "What are the recommendations?"

10. The tenth step is to review the solution. This involves reflecting on the process of solving the problem. This can be done by asking questions such as "What did we learn?" and "How can we improve?"

There is mounting concern among economists during the 1980s that the β coefficient in the short-run Phillips curve is smaller than in the long-run Phillips curve, and that the short-run Phillips curve is downward sloping. This is in contrast to the long-run Phillips curve, which is upward sloping. As a result, the short-run Phillips curve is steeper than the long-run Phillips curve. This is the case because the short-run Phillips curve is more sensitive to changes in the money stock than the long-run Phillips curve.

Big Christmas Special! Save on Two-Tone Seamless Velure Carpeting

Ideal for that room you've been meaning to "do something about" for so long! This moderately priced Velure carpeting will brighten up any place where traffic is light and you do not want to spend the money for a higher priced Wool rug.

The specially processed surface is of 25% hair and 75% strong lute fiber, triple-needled through the strong fabric interlining so that fibers will not pull out. In seamless sizes to fit your room, so that instead of bare, drab floors you'll

have a wall-to-wall expanse of color to liven things up. Soft and cushiony to the step. Bound with overlock stitch. Smart leaf design. All the year's leading 2-tone colors: Wine Burgundy, Medium Blue, Jade Green or Wood Tan. 602F5C 6014. Please state size and color.

20-Piece
Service for 6

- Your own monogram in a handsome crest, with matching border, all of 22K Gold
- In a wide selection of services to fit your need . . . All at Spiegel's low prices

What Christmas gift could receive a warmer welcome than a beautifully styled dinnerware service, just the size to fit her needs—and personalized with her monogram in rich Gold leaf. This special Christmas offer is not one outfit, or service, but a complete selection for 6, 8, or 12, whatever your individual need! The lady border decoration, the elegant center crest and the initial are all of 22K Yellow Gold. The graceful Windsor shape carries out the traditional style.

All the services are of selected quality VICTORIA semi-porcelain, triple fired for the finest glaze. The Gold pattern is under the glaze so it can't chip off. See composition of sets and tag weights below. Shipped from factory in Sebring, Ohio. Order early, in plenty of time for Christmas! State initial for your monogram.

Lovely, sparkling glassware that's ovenproof—the very latest development in modern dinnerware. It's the perfect Christmas gift for just about any busy home-maker, and specially priced at just \$2.98 for the 28-piece set. Be sure to order early this year. All the pieces are sturdy so you can bake in them, lovely in design and color so you can serve in them, big and roomy so you can store food away in them.

WON'T BREAK FROM OVER-HEATING

Made of genuine Fire-King glassware that is guaranteed not to break from overheating in the oven. A sapphire-colored glass—clear and rich in tone. Practically every piece in this set has a double

utility value. The cups may be used for baking custards and puddings; the dessert bowls may be used for baking fruit or as individual casseroles; the soup bowls may be used for baking pies. The large bowl makes a perfect casserole. All the shallow pieces such as the platter and plates may be used for warming foods in the oven. Will not break!

Check the composition of the sets in the columns at the right and left. The 28-piece set includes service for 4. The 52-piece set includes service for 8. Both are priced low for Christmas gift giving!

HER Gift—5-Piece Dinette Set, 34-Piece "Moonstone" Lunch Set

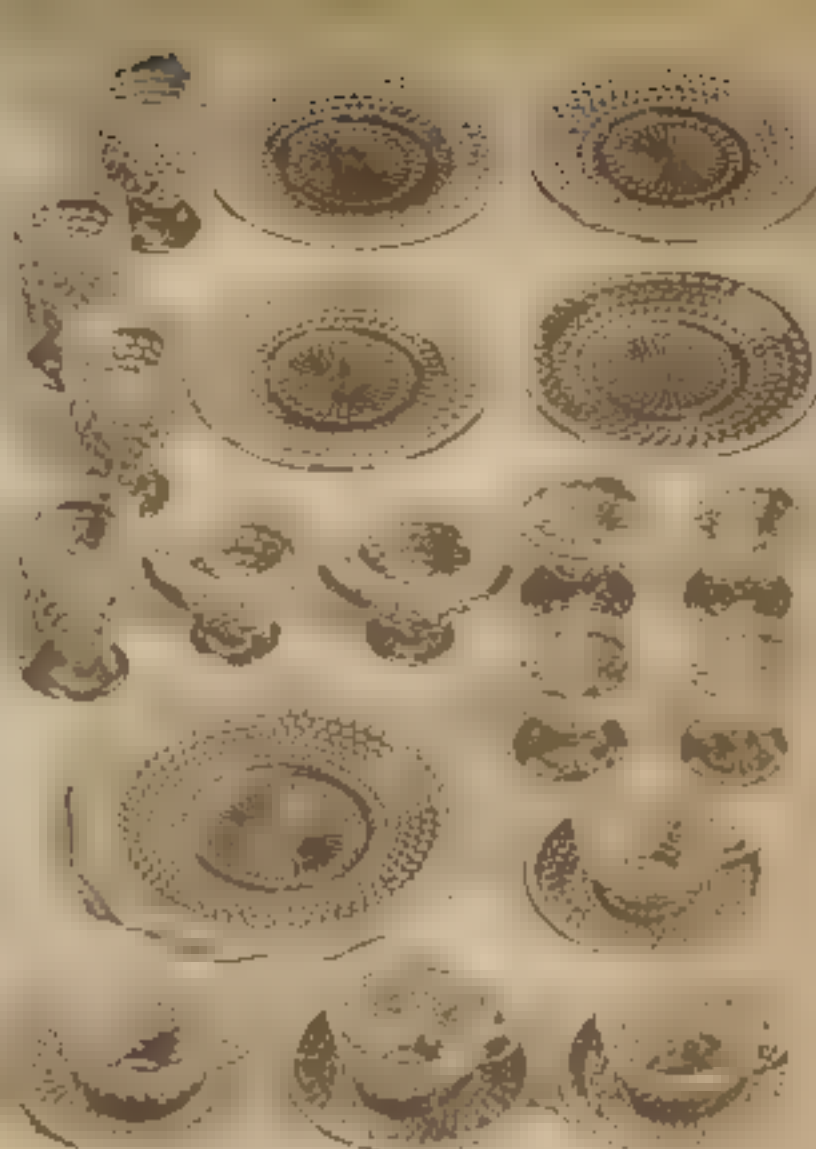

For mother... for the new bride or bride-to-be... for the whole family... what could make a lovely gift? It's this complete latest style dinette and glass luncheon service. It was specially selected at the 400-variety to be included in our big Christmas Catalog, so that our customers could have the newest. And it is specially priced at an "outfit" so our customers could have money at the time. When bought separately, these pieces would cost considerably more.

The 5-Piece Dinette Set—durable, constructed of select hardwood. Table has stain and heat-resistant top. All joints are doweled and glued. Corners are well braced with corner blocks. The beautiful white enamel finish is the perfect artistic background for the handsome black and red enamel decorations. The 30x42-inch table top comes with matching 10-inch leaf which extends it to 52 inches in length. The comfortable chairs come

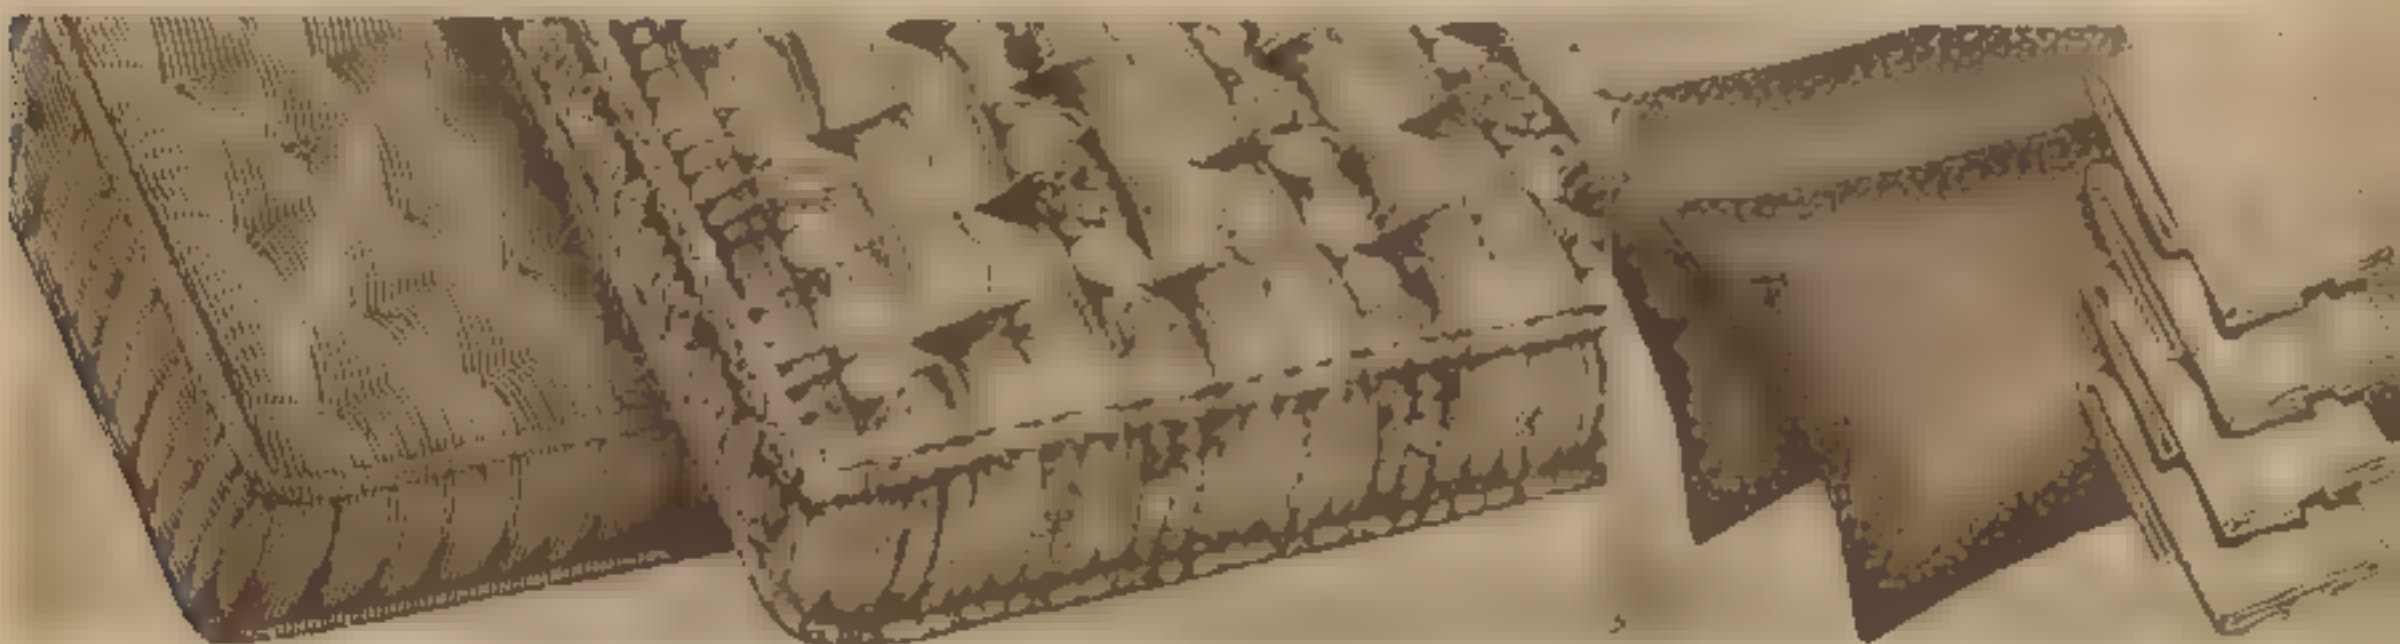

with large 15 1/2 x 16-inch seats and matching black-finished wooden frames. **The 34-Piece "Moonstone" Set**—stunning hand-blown glass design which shows from clear glass to milk glass when on the edges. Looks just like expensive hand-cut glass. You've never seen anything prettier. It's a luncheon service that will bring compliments and admiration. The set includes: three useful pieces, four each of cups, saucers, dessert dishes, luncheon plates, water goblets and one sugar, creamer and large 10x16-inch plate. It also includes the beautiful, matching teacup set—orange glass and six dessert dishes—as well as the handsome, matching four-piece buffet set—two round buffers, one plate and serving bowl. A complete 34-piece set. Shipping weight of complete outfit—55 pounds. **\$129.95 Reduced. Complete, as described... \$14.95**

If you have a preference for express or freight, please indicate this on your order. Your money will be refunded to you if you return your order within 30 days of the date of shipment.

HERE'S ALL YOU NEED DO

1. Give Complete Information

Print or write plainly your full name and complete address. Then list the merchandise you want us to send you.

Sizes and colors are important! Be sure to state them where necessary, in addition to telling us the catalog number, quantity, name of article, pattern, finish and price. (To get the best service, all members of your household should order under one name.)

2. Include Parcel Post Charges

The required PARCEL POST charges must be included in money orders or checks sent with cash orders. To get the amount of these charges, list in the column provided on your order blank the shipping weights as given on each item in the catalog description. Then add up the weights and change ounces to full pounds (16 oz. to 1 lb.) and find the parcel post rate in table on opposite page. Be careful not to include with parcel post items the weights of any items to be shipped by express or freight. Weights and rates of each type of shipment must be figured separately. Some items (which would seem ordinarily available) are listed in our catalog as "not available" because of excess size or other postal restrictions. Figure these items to be shipped by freight or express.

The only time you have to figure and send us the freight charges is when there is no agent in your town and you are ordering for cash. Page 77 explains about freight charges.

3. On Cash Orders

Enclose required amount of money, with your order, seal the envelope, stamp and drop it in the mail. All remittances should be in the form of either a money order or check. If you enclose coin or currency, you should always register your letter.

HOW TO FIGURE PARCEL POST CHARGES

You Pay Charges Only From
Spiegel Shipping Point Nearest You

Parcel Post is Best for Light, Malleable Packages weighing up to 40 or 50 pounds. However, packages weighing up to 70 pounds, and of limited size, can be sent by parcel post in all postal zones. Explosives, inflammable articles and poisons cannot be sent by parcel post, with the exception of germicides, insecticides and fungicides, which are permitted.

Include Enough Money for Postage. If you want your goods shipped by parcel post. Don't hesitate to send too much as any over-payment will be refunded.

Pay Postage on Total Weight. As you write your order, note the shipping weight of each item as stated in its description and enter the shipping weights in the last two columns on the right of the order blank. Be sure to list pounds in one column and ounces in the other. Then, after adding, change the ounces to pounds (16 ounces to a pound). Show the total weight of parcel post items in pounds.

Always remember that on packages weighing *over one pound*, the postoffice counts a fraction of a pound as a full pound and charges postage accordingly. For example, if the total weight of your order is 7 pounds and 1 ounce, the postoffice charges the parcel post rate for 8 full pounds. Therefore, you could include additional articles weighing 15 ounces without having to pay one cent more for postage. It means extra savings for you when you build up your order to full pounds.

Refer to the Parcel Post Table at Left for the correct amount to include for postage. In the first column of the Parcel Post table, find the total shipping weight of your order. Follow through to the right to determine the parcel post charge required according to the zone you live in from your nearest Spiegel shipping point.

For example, suppose you live in Troy, Alabama and plan to send a 27-pound parcel post order to Spiegels and your nearest Spiegel shipping point is Birmingham, Alabama. Since Troy is about 135 miles from Birmingham, you would pay Zone 1-and-2 rates.

So, turning to the Parcel Post Rate table, you simply look down the first column of weights until you come to 27 pounds. Then follow over to the right to the Zone 1-and-2 column and you find that the postage on 27 pounds is just 37c.

POSTOFFICE MONEY ORDER CHARGES

The postoffice makes the following charges for Money Orders, regardless of where they are purchased:

Amount	Charge	Amount	Charge
Up to \$2.50	6c	\$20.01 to \$40.00	15c
\$2.51 to 5.00	8c	40.01 to 60.00	18c
5.01 to 10.00	11c	60.01 to 80.00	20c
10.01 to 20.00	13c	80.01 to 100.00	22c

For amounts above \$100, purchase additional Money Orders at the same charges as shown above.

SPECIAL DELIVERY

If you want your order mailed Special Delivery, mark it "Special Delivery Mail" and allow the following charges in addition to regular parcel post charges.

Up to 2 pounds.....	15c
Over 2 pounds to 10 pounds ..	25c
Over 10 pounds	35c

You Pay Only the Charge From the Point Nearest You

There is no need to figure freight or express charges as they are collected by your local agent at time of delivery. Of course, in those few cases where there is no agent in the town, and you are ordering for cash, you will have to include your freight charges with your order.

Here's How to Estimate EXPRESS CHARGES

To estimate express charges, see the table at the right. It's very simple to use. Simply find the weight of your shipment in the first column. Then look in the columns at the right to determine the express charge required according to the distance.

Example: Suppose your order weighs 25 pounds and you live 190 miles from the shipping point. You would use the 200-mile rate to find the approximate charge. The table at the right shows that 74¢ would be the estimated charge. If the shipment weighs 200 pounds, the charge would be twice the 100-pound rate of \$2.25, or \$4.50.

Quantity	Distance from Special Shipping Point nearest to you					
	100 Miles	200 Miles	300 Miles	400 Miles	500 Miles	1000 Miles
5 Pounds	35c	40c	40c	45c		55c
10 Pounds	40c	50c	60c	60c		75c
15 Pounds	44c	53c	61c	73c		84c
20 Pounds	57c	63c	76c	91c	\$1.04	\$1.29
25 Pounds	60c	74c	84c	\$1.06	1.25	1.43
30 Pounds	68c	83c	\$1.01	1.25	1.46	1.67
40 Pounds	84c	\$1.06	1.29	1.61	1.58	2.16
50 Pounds	\$1.00	1.25	1.65	1.96	2.29	2.65
75 Pounds	1.40	1.62	2.23	2.64	3.34	3.88
100 Pounds	1.75	2.25	2.90	3.62	4.29	5.00

Here's How to Estimate FREIGHT CHARGES

BUILD UP YOUR FREIGHT SHIPMENT TO 100 POUNDS. The minimum charge for any rail freight shipment is the rate for 100 pounds, but it is *never less than 58 cents*. Minimum charge by truck may in some instances slightly exceed the hundred-pound rail rate. Charges on shipments over 100 pounds, however, are based on actual weight. If your order weighs less than 100 pounds, it will be to your advantage to order future needs and build your order up to 100 pounds.

On freight orders of 100 pounds or less, made up of several articles taking different freight rates, the highest rate applies to the entire shipment.

Suppose you are ordering a mattress weighing 50 lbs. and 40 lbs. of oil, making a total of 90 lbs. to be shipped 100 miles. The table at the right tells you that the rate for a mattress is 64c for 100 lbs., or 32c for 50 lbs.; and the rate for oil is 46c for 100 lbs., or 18c for 40 lbs. Adding the two charges together would make a total of 50c. However, because the minimum freight charge is the rate for 100 lbs. of the highest rated article in the shipment, the freight charge on this order would be 64c.

Some heavy articles are shipped direct from factory to save handling charges. In such cases, the catalog description gives the point of shipment. Items shipped from the factory may be ordered along with other catalog items, but shipping charges on factory items must always be figured separately.

Spiegel's Lower Shipping Charges policy applies to freight orders, too. Freight orders are shipped from Spiegel's seven shipping points. Except in the case of factory shipments, you pay only the low freight rate from the Spiegel shipping point nearest your home. Figure your freight charges by using the simple table at the right.

FREIGHT CHARGES ARE BASED ON THE ACTUAL DISTANCE THE SHIPMENT IS HAULED. The distance to use in estimating your freight charges is the distance from your home to the shipping point nearest you—except for factory shipments in which case you use the distance from your home to the factory.

The rates shown in the table are, of course, only estimated charges for the distances indicated. If you want to know the exact charge, ask your freight agent.

If there is no freight agent in your town and you are ordering for cash, use the table to estimate how much money to include for freight charges. Don't be afraid of sending too much money. Any over-payment will be refunded promptly—to the penny.

To estimate the freight on your order, simply find the article you are ordering in the list below. Then refer to the columns at the right of the article to determine the freight charges required according to the shipping distance.

Example: Suppose you live in Harrisburg, Pa. and want to order furniture weighing 100 pounds. Your nearest shipping point is Pittsburgh, Pa.—about 200 miles away. The rate table below shows the 200-mile freight rate for 100 pounds of furniture to be 88 cents.

YOUR NEW MONTHLY PAYMENT CANNOT BE LOWER THAN WHAT YOU ARE NOW PAYING

PLAN TO BUY COMPLETELY

Under any circumstances, credit balances can be brought up to as much as \$60.00 without paying more than \$5.00 a month—with twelve months to pay.

This shows the advantage of buying your everyday needs sensibly and completely—while keeping your Monthly Payments as low as possible.

ABOUT PARCEL-POST CHARGES

On Parcel-Post Time Payment orders, Spiegels will compute your new lower shipping charges and add to you of the amount to include along with your first new monthly payment.

ABOUT CARRYING CHARGES

When ordering on the Time-Payment Plan we will add 10% for Carrying Charges. If a down payment is required, we will deduct the amount of the down payment from the Total Amount of your order and figure your Carrying Charge on the balance.

EVERY ITEM IN THIS CHRISTMAS CATALOG PRICED BELOW THESE CEILING PRICES

On these two pages you will find a complete list of the items for sale in this Christmas Catalog, showing our ceiling price on each item, where such a price has been established pursuant to regulations issued by the Office of Price Administration.

Every price in this Catalog is below our ceiling price except a few nationally advertised items, which are price maintained by law and cannot be reduced in price by any dealer.

AMERICA IS SHOPPING BY MAIL

**THIS YEAR...DO YOUR SHOPPING EARLIER
WITH THIS CHRISTMAS CATALOG**

Habits change with changing times.

Today . . . shopping by mail . . . is becoming a national habit. It meets the country's demand for conservation. It saves time, tires and gasoline.

America is discovering that it's not only *smarter* to shop by mail—it's *thrifter*, as well.

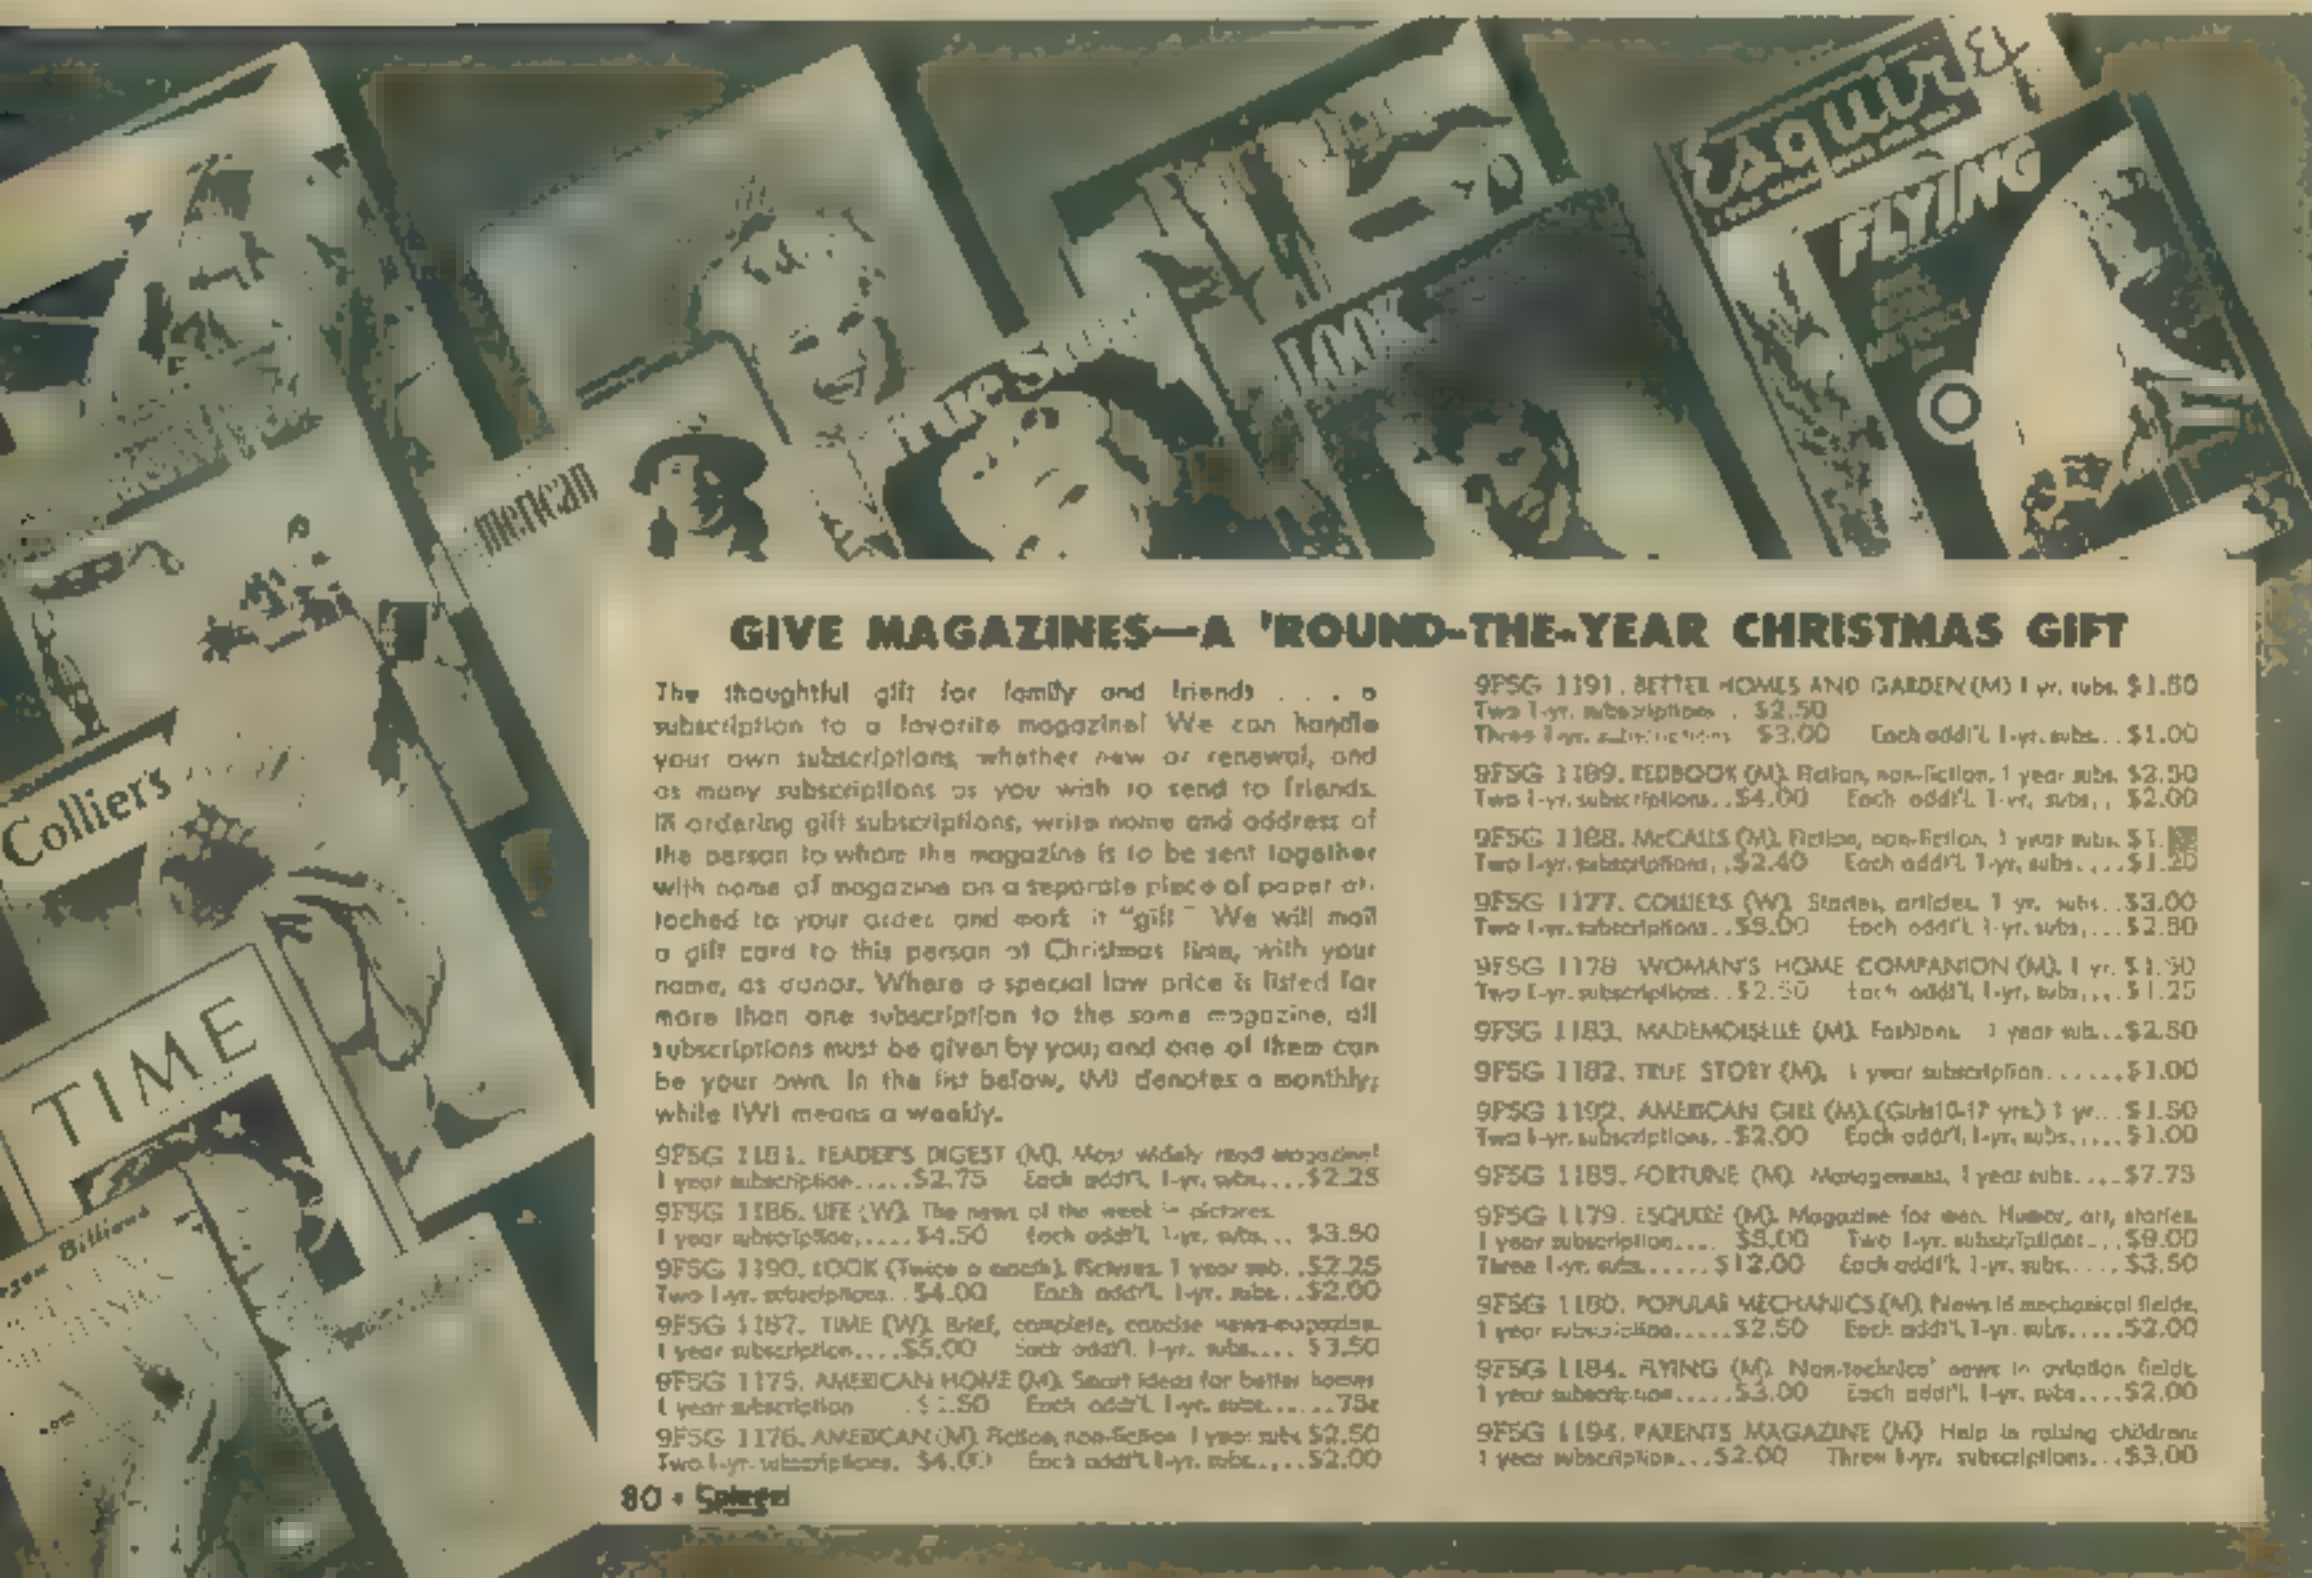

In this Christmas Catalog there are choice gifts for

everyone on your list, as well as smart wearing apparel, toys, home needs and sporting goods. You'll find many articles that are no longer being made and are hard to get elsewhere.

This year do your Christmas shopping leisurely, from the comfort of your home. Your purchases will be delivered right to your door.

GIVE MAGAZINES—A 'ROUND-THE-YEAR CHRISTMAS GIFT

The thoughtful gift for family and friends . . . is a subscription to a favorite magazine! We can handle your own subscriptions, whether new or renewal, and as many subscriptions as you wish to send to friends. In ordering gift subscriptions, write name and address of the person to whom the magazine is to be sent together with name of magazine on a separate piece of paper attached to your order and mark it "gift." We will mail a gift card to this person at Christmas time, with your name, as donor. Where a special low price is listed for more than one subscription to the same magazine, all subscriptions must be given by you; and one of them can be your own. In the list below, (M) denotes a monthly; while (W) means a weekly.

For Bland and his group, the first step was to identify the people who were most likely to be affected by the disease. They then went to the homes of these people and tried to get them to agree to be part of the study. This was a difficult task, as many of the people were very poor and did not have much to lose. However, Bland and his group were able to get a small number of people to agree to be part of the study. They then began to collect data on these people, and found that the disease was indeed more common in the poor than in the rich.

At the same time, the fact that the
 Bureau is not yet fully equipped
 with the necessary personnel and
 facilities to handle the large volume
 of work is a serious problem. The
 Bureau is currently facing a shortage
 of personnel, particularly in the
 areas of investigation and
 administration. This shortage is
 due to a number of factors, including
 the loss of experienced personnel
 and the difficulty of recruiting
 new personnel. The Bureau is
 currently working to address this
 problem by recruiting new personnel

CONSERVE TIRES

WITH THIS NEW TIRE RELINER

\$2⁹⁸

LIMIT—4 TO A CUSTOMER

Get those extra miles out of your tires! Use the new tire-reliner developed by one of the nation's large tire manufacturers to help conserve America's tires! Made of heavy 2-ply cord fabric in a strong vertical weave, and impregnated with a special composition to give it added strength without losing its flexibility. These tire-reliners have an adhesive quality. Placed inside your tire they fit smoothly and soon adhere to the casing, protecting your tube against injury and reducing danger of blowouts. Especially good when used in a tire that has been re-capped, since then the tire will have a new inner-lining as well as a new tread. Limit—4 to a customer.

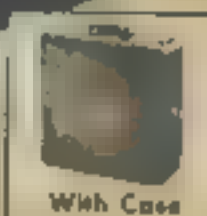

Here is a way to add life to your tires without using the rubber that is so vital to America's war effort. We can supply reliners to fit these sizes only: 5:50-17, 6:00-16, 6:50-16.
